Blue Lotus Tribe is a Tribal Fusion Belly Dance troupe dedicated to the evolution of this exciting and fresh dance form and to bringing original and creative performances to the public. Our tribe begins with the elements of Middle-Eastern belly dance, both modern and folkloric, and combines them with movements from the dances of Spain, India, and the nomadic Gypsy people of Asia and Europe.

Different Drummer Belly Dancers mixes traditional belly dancing and modern music, borrowing from cabaret, American Tribal, and Dnyavi Gypsy styles of belly dance. We believe the power, beauty, joy, and grace of belly dance can be expressed in our modern 20th and 21st century music.
